PART I

INFORMATION ON THE COMPANY

Introduction

Uranium Resources has been established for the purpose of making investments in the mining and minerals sectors and specifically in the uranium sector. Uranium Resources' equity interest in a proposed investment may range from a minority position to 100% ownership. The proposed investments may be either quoted or unquoted and may be in companies, partnerships, joint ventures or direct interests in mining projects. Whilst it is likely that the investments will be made in exploration or development stage undertakings, the Directors may decide that the Company should invest in producing assets. There are no geographic restrictions on investment. However, it is expected that the Company will have a geographic bias towards Australia, Africa and the former Soviet Union.

Strategy

The Directors are experienced in evaluating acquisition and investment prospects, quoted and unquoted, both in the UK and overseas and are able to call on independent expertise in the sector.

David Steinepreis is a director and equal beneficial shareholder of Ascent Capital Pty Ltd, an Australian registered company. Peter Harold is the managing director of Sally Malay Mining Limited. Ross Warner is a corporate lawyer with 10 years experience in the practice of the law in Australia and the United Kingdom.

Ascent Capital was formed by David Steinepreis, Hugh Warner and Gary Steinepreis to pursue the reconstruction and recapitalisation of existing stock exchange quoted companies, assist in the establishment of new businesses and the listing of new companies on recognised stock exchanges and trading facilities including, OFEX and AIM in the United Kingdom and the ASX in Australia. Since its foundation, Ascent Capital has successfully recapitalised and relisted fifteen companies on the ASX. In addition, Ascent Capital has successfully listed two companies on the ASX and two companies on the AIM via initial public offerings. These companies are variously involved in mineral extraction, mineral exploration, biotechnology and life sciences. These companies have a collective market capitalisation of in excess of £120 million.

Investment propositions will be considered when the Directors perceive that enhanced values may be achieved. A particular consideration will be to identify investments which are, in the opinion of the Directors, under-performing or undervalued, and where the Directors believe that their expertise and experience can be deployed to facilitate growth or unlock inherent value.

Each Director is or has been a director of other publicly listed companies in Australia, England or Canada, as set out in paragraph 4.10 of Part III of this document. New investment opportunities may be offered to one company over another and might not be offered to the Company, nor may the Directors be able to direct an investment to a particular company. When considering investment opportunities, the Directors intend to apply investment allocation criteria to avoid a potential conflict of interest. The Directors do not intend that the Company will invest in any other companies in which Ascent Capital or its directors have invested or will invest in the course of carrying on the business of Ascent Capital.

The Company intends to be an involved and active investor. Accordingly, where necessary, the Company may seek participation in the management or board of directors of a company in which the Company invests with a view to improving its performance and use of its assets in such ways as should result in an upward re-rating of the value of such companies. The Company hopes that the resultant benefit should show a satisfactory return to the Company's shareholders.

The Directors are confident that the resources of the Company can be fully invested within two years. If no investments have been made within that period, any surplus funds will be returned to shareholders, subject to their approval. It is likely that a substantial portion of resources will be invested in a small number of propositions or in one investment.

The Directors consider that as investments are made, and new promising investment opportunities arise, further funding of the Company will be required.

Directors

The Directors are as follows:

David Steinepreis (Executive Chairman) (Age: 47)

David Steinepreis is a Chartered Accountant and former partner of an international accounting firm where he specialised in strategic corporate advice and taxation for listed companies. He entered commerce as a director, adviser and major shareholder of a number of listed companies in the gold, nickel, diamonds, oil and new mining technology sectors. Mr Steinepreis is a Director of Salus Technologies Limited, Mokuti Mining Ltd, Black Range Minerals Ltd and M Health Limited companies listed on the ASX and Ascent Resources PLC, a company listed on AIM. Mr Steinepreis is also chairman of Ascent Capital.

Peter Harold (Non-Executive Director) (Age: 41)

Peter Harold holds a Bachelor of Applied Science in Chemistry from the University of Melbourne. He joined Sally Malay Mining Limited in April 2001 as Managing Director and has taken the Company from project acquisition, through IPO, feasibility study, financing and construction and now into the operational phase. Mr Harold started his career with Shell Australia before joining Australian Consolidated Minerals Limited in 1989 as marketing manager for the Golden Grove project. After the takeover of Australian Consolidated Minerals by Normandy Mining Limited, Mr Harold worked for Normandy Mining Limited until he joined MPI Mines Limited in 1992 as Commercial Executive responsible at times for treasury, marketing, business development, and insurance. Mr Harold worked on the Cawse laterite nickel project from 1999 to early 2001 when he established Sally Malay Mining Limited.

Ross Warner (Non-Executive Director) (Age: 38)

Ross Warner holds a Bachelor of Laws degree from the University of Western Australia and a Master of Laws degree from the University of Melbourne. Mr Warner has approximately ten years experience working in law firms including Mallesons Stephen Jaques in Australia and Clifford Chance in the UK. His principal area of practice has been advising venture capital funds in relation to management buy-outs and related transactions. Mr Warner is a director of Tower Resources PLC, a company listed on AIM.

The Placing

The Placing is conditional *inter alia* on Admission and a minimum subscription of £400,000 being raised. The Placing Shares allotted pursuant to the Placing, following allotment, will rank *pari passu* in all respects with the existing Ordinary Shares of the Company.

Placees are required to remit their subscription monies to the Company by 7 February 2005. Subscription monies will be held by the Company, in trust, pending Admission. Definitive share certificates for Placees wishing to hold their Placing Shares in certificated form are expected to be despatched to such Placees by 28 February 2005.

Reasons for the Placing and use of proceeds

As referred to above, the Company intends to review investments in the mining and minerals sectors and specifically in the uranium sector. A large part of the funds raised in the Placing will be used to pay for the cost of reviewing potential investments as and when they are identified and, where appropriate, securing the right to make an investment. In addition, the Placing proceeds will provide working capital for the Company.

The Company is seeking Admission to AIM in order to take advantage of that market's public profile, broad investor base, liquidity and access to institutional investors.

Working capital

The Directors are of the opinion that, taking into account the net proceeds of the Placing and having made due and careful enquiry, the working capital available to the Company will, from the date of Admission, be sufficient for its present requirements, that is, for at least the next 12 months from the date of Admission.

Future prospects and significant trends

The Directors believe that the Company is well placed to enhance the value of the Company through strategic investment as described under the heading "Strategy" in Part I of this document.

Save as disclosed in this document, there have been no significant trends concerning the development of the business of the Company.

Dividend policy

The nature of the Company's business means that it is unlikely that the Directors will recommend a dividend in the early years following Admission. The Directors believe the Company should seek to generate capital growth for its Shareholders but may recommend distributions at some future date, depending upon the generation of sustainable profits, when it becomes commercially prudent to do so. If no investments have been made by the Company within two years following Admission, the Company will return surplus funds to Shareholders subject to receiving Shareholder approval.

Taxation

The attention of prospective investors is drawn to the taxation section in paragraph 8 of Part III of this document.

Lock-in arrangements

The Directors, the related parties and applicable employees (each as defined in the AIM Rules) whose interests in the Company amount to 25.5% of the issued Ordinary Shares on Admission, have undertaken not to dispose of any interest in their Ordinary Shares for a minimum period of twelve months following Admission except in the very limited circumstances allowed by the AIM Rules.

Corporate governance

The Directors recognise the importance of sound corporate governance commensurate with the size of the Company and the interests of Shareholders. As the Company grows, the Directors intend that it should develop policies and procedures which reflect the Combined Code on Corporate Governance which was published in July 2003 (the "Combined Code"), so far as is practicable, taking into account the size and nature of the Company.

The Company will adopt and operate a share dealing code consistent with Rule 19 of the AIM Rules and will take all proper and reasonable steps to ensure compliance by the Directors and relevant employees.

CREST

The articles of association of the Company permit the Company to issue shares in uncertificated form in accordance with the Uncertificated Securities Regulations 2001. The Directors will apply for the Ordinary Shares to be admitted to CREST with effect from Admission. Accordingly, settlement of transactions in the Ordinary Shares following Admission may take place in the CREST system if the relevant Shareholders wish.

CREST is a voluntary system and holders of Ordinary Shares who wish to receive and retain certificates will be able to do so.

City Code on Takeovers and Mergers

Although the Company is incorporated in the United Kingdom, it is managed and controlled outside of the UK. Accordingly it is likely that the City Code on Takeovers and Mergers (the "City Code") does not apply to the Company and that the Company will not be subject to takeover regulation in any jurisdiction. For these reasons, the Company has incorporated provisions into its Articles of Association under which the Directors have the discretion to disenfranchise Shareholders who fail to make a mandatory offer to acquire all of the Ordinary Shares of the Company in circumstances when such Shareholders would have been obliged to do so if Rule 9 of the City Code did apply.

Risk Factors

The Directors consider the following risks to be the most significant for potential investors in the Company. However, the risks listed do not necessarily comprise all those associated with an investment in the Company:

Risks relating to investments by the Company

- The Company will initially be dependent upon the ability of the Directors to identify suitable investment opportunities and implement the Company's strategy.
- The Company may be unable to effect an investment in an identified opportunity, as a consequence of which resources might have been expended fruitlessly on investigative work and due diligence.
- The Company may have minority interests in the companies, partnerships and ventures in which it invests and may be unable to exercise control over the operations of such companies.
- The managements of targeted companies may not always welcome pro-active involvement and may be resistant to change.
- The Company may invest in jurisdictions where there may be a number of associated risks over which it will have no, or limited, control. These may include economic, social or political instability or change, hyperinflation, currency non-convertibility and changes of law. In particular, the Company may be adversely affected by changes in social and political attitudes to the exploitation of uranium resources.
- The Company may invest in exploration for and the development of resources which is speculative and involves a significant degree of risk. There is no assurance that such exploration will lead to commercial discoveries or, if there is a commercial discovery, that such reserves will be realisable.
- The Company is currently managed and controlled in Australia and is considered to be resident in Australia for tax purposes. However, the location of the management and control of the Company may change in the future which may affect the Company's tax residency.

General economic risks

- The Company's main strategic focus for investment will be in the mining and minerals sectors and specifically in the uranium sector and therefore the Company will be exposed to general exploration, mining and processing risks. These include unusual and unexpected geological formations, rock falls, seismic activity, flooding and other conditions involved in the extraction of material, natural disasters, terrorist attacks and political unrest any of which could result in the damage to, or destruction of, mines and or other producing facilities, damage to life or property, environmental damage and possible legal liability. Although adequate precautions to minimise risk will be taken, operations are subject to hazards which may result in environmental pollution and consequent liability which could have an adverse impact on business, operations and financial performance of the Company.
- The Company's total return and net assets can be significantly affected by currency movements.
- The Company is likely to face competition from other entities operating in its business sector, many of which may have significantly greater resources than the Company.
- Share market conditions, particularly those affecting mining and exploration companies, may affect the ultimate value of the Company's share price regardless of future operating performance.

Trading and liquidity in the Ordinary Shares and growth of the Company

- The market price of the Ordinary Shares may not reflect the underlying value of the assets of the Company.
- The market in the Ordinary Shares may be illiquid or subject to sudden or large fluctuations and it may be difficult for an investor to sell his Ordinary Shares and he may receive less than the amount originally invested.
- A further issue of Ordinary Shares may be necessary for the Company to achieve its objectives. The Company may in the future raise additional funds through public or private financing. Notwithstanding statutory subscription rights, if additional funds are raised through the issue of equity securities, the percentage ownership of the then current Shareholders of the Company may be reduced and such securities may have rights, preferences or privileges senior to those of the holders of the Ordinary Shares.
- The Company is highly dependent on the Directors. Whilst the Board has sought to and will continue to ensure that Directors and key employees are appropriately incentivised, their services cannot be guaranteed. The Company has a small management team and the loss of one or more executive or key employees may have a material adverse effect on the performance of the Company.

The investment described in this document may not be suitable for all those who receive it. Before making a final decision, investors in any doubt are advised to consult a person authorised under the Financial Services and Markets Act 2000 who specialises in advising on the acquisition of shares and other securities.

Voting rights

Subject to any special terms as to voting upon which any shares may be issued or may for the

time being be held (as to which there are none at present) and subject to certain other Articles, on a show of hands every holder of an Ordinary Share present in person (if an individual) or duly authorised representative (if a corporation) shall have one vote, and on a poll every member present in person or by proxy and entitled to vote shall have one vote for each Ordinary Share of which he is the holder.

If at any time when the City Code on Takeovers and Mergers (the “City Code”) does not apply to the Company, a person (together with any persons held to be acting in concert with him) acquires shares in the Company which would have obliged them to extend an offer (a “mandatory offer”) to the holders of all other shares in the Company had the City Code applied, the Directors have the discretion to disenfranchise such person until a compliant mandatory offer is made.

Dividends

The profits of the Company available for distribution and resolved to be distributed shall be applied in the payment of dividends to the members in accordance with their respective rights and priorities. No dividend may exceed the amount recommended by the Board of Directors.

Return of capital

If the Company shall be wound up, the liquidator may, with the authority of an extraordinary resolution (and any other sanction required by the Statutes), divide among the members in proportion to their shareholdings in specie the whole or any part of the assets of the Company and may determine how such division shall be carried out between the members or different classes of members.

Variation of rights

Subject to the Statutes, none of the rights, privileges or conditions for the time being attached to or belonging to any class of shares forming part of the issued share capital for the time being of the Company shall (unless otherwise provided by the terms of issue of the shares of that class) be modified, varied or abrogated in any manner except with the consent in writing of the holders of three fourths in nominal value of the issued shares of the class or, subject to the provisions of the Statutes, the sanction of an extraordinary resolution passed at a separate meeting of the members of that class.

Changes in share capital

The Company may by ordinary resolution increase its share capital, cancel any unissued shares, consolidate and divide all or any of its share capital into shares of a larger amount and, subject to the provisions of the Statutes, subdivide all or any of its shares into shares of a smaller amount. Subject to the provisions of the Statutes, the Company may by special resolution reduce its share capital, any capital redemption reserve and any share premium account in any way.

Purchase by the Company of its own shares

Subject to the provisions of the Statutes, to any rights conferred on the holders of any other shares and to the authority of the Company in general meeting required by the Statutes, the Company may purchase its own shares.

Unclaimed dividends

Any dividend unclaimed after a period of 12 years from the date it became due for payment shall, if the Directors so resolve, be forfeited and cease to remain owing by the Company.

Borrowing powers

The Directors may exercise all the powers of the Company to borrow money and, subject to the Statutes, to grant any mortgage, charge or debentures, debenture stock or other securities whether outright or as security for any debt, liability or obligation of the Company or of any third party.

Directors

Unless otherwise determined by ordinary resolution, the number of directors shall be not less than two.

5. Material contracts

The following contracts, not being contracts entered into in the ordinary course of business of the Company, have been entered into by the Company and are or may be material:

5.1 Nominated Adviser and Broker agreement

A letter of engagement dated 27 January 2005 from Nabarro Wells to the Company under which Nabarro Wells has agreed to act as the Company's nominated adviser and broker for one year from Admission and thereafter, unless terminated by three months' written notice by Nabarro Wells or the Company). Under the agreement, the Company has agreed to pay to Nabarro Wells a fee of £20,000 (plus VAT) on admission, an ongoing nominated adviser fee of £10,000 (plus VAT) per annum and an ongoing broker's fee of £10,000 (plus VAT) per annum, if applicable.

5.2 Lock-In Deed

A Lock-In Deed dated 31 January 2005 between the Directors, applicable employees and related parties (each as defined in the AIM Rules, the "Locked-In Persons") and the Company and Nabarro Wells pursuant to which the Locked-In Persons have undertaken to Nabarro Wells and the Company save in specified circumstances not to sell or otherwise dispose of, or agree to sell or dispose of any of their interests in the Ordinary Shares held by them for the 12 month period commencing on the date of Admission.

Save as disclosed above, there are no contracts (other than contracts entered into in the ordinary course of business) which have been entered into by the Company since its incorporation and which are or may be material.

6. Litigation

There are no legal or arbitration proceedings (including, to the knowledge of the Directors, any such proceedings which are pending or threatened by or against the Company) which may have or have had during the 12 months immediately preceding the date of this document a significant effect on the financial position of the Company.

7. Working capital

The Directors are of the opinion that, taking into account the net proceeds of the Placing and having made due and careful enquiry, the working capital available to the Company will, from the date of Admission, be sufficient for its present requirements, that is, for at least the next 12 months from the date of Admission.

8. Taxation

The following summary is intended as a general guide to United Kingdom resident and ordinarily resident Shareholders, who are domiciled in the United Kingdom, and who hold Ordinary Shares in the Company as investments (rather than as dealing stock). The summary is based upon existing legislation and current Inland Revenue practice. Any prospective Placee who is in any doubt as to his tax position, whether in the United Kingdom or in any other jurisdiction in which he may be liable to tax, should consult, and rely upon, the advice of his own professional advisor.

8.1 Tax residence of the Company

It is expected that the Company will be managed and controlled in Australia. Accordingly, it should be treated as being resident in Australia under the United Kingdom/Australian double tax treaty and consequently not resident in the United Kingdom under the United Kingdom's domestic law.

8.2 Taxation of Dividends

Individual

Although dividends paid by the Company will constitute Schedule D Case V income in the hands of Shareholders, United Kingdom resident Shareholders who are individuals will be liable to income tax (if at all) on dividends at, in the case of starting and basic rate taxpayers, the Schedule F ordinary rate (10% for the year 2004-2005) or, in the case of higher rate taxpayers, the Schedule F upper rate (32.5% for the year 2004-2005) in accordance with Sections 1A and 1B of the Income and Corporation Taxes Act 1988. Dividend income from the Company will be treated as forming the highest part of the Shareholder's income.

Companies

A corporate Shareholder will generally be subject to United Kingdom corporation tax under Schedule D Case V in respect of dividends received from the Company at the usual rate of corporation tax applicable to it (30% for the year 2004-2005 for companies paying the full rate of corporation tax).

Tax Credits

Individuals and corporate Shareholders (in the case of corporate Shareholders owning less than 10% of the Company) are not normally able to obtain credit for any underlying tax paid by the Company in respect of its own profits.

In the event that dividends are paid under deduction of Australian withholding tax, United Kingdom Shareholders may be able to obtain credit for all or part of any Australian tax so withheld, in computing their respective liabilities to United Kingdom income tax or corporation tax on such dividend income.

8.3 Taxation on disposals

Individuals

A Shareholder who disposes of (or who is deemed to dispose of) his Ordinary Shares may be liable to capital gains tax in relation thereto at rates up to 40% (for the year 2004-2005) of any chargeable gain thereby realised. In computing the chargeable gain the Shareholder should be entitled to deduct from disposal proceeds the cost to him of the Ordinary Shares (together with incidental costs of acquisition and disposal) and may be able to deduct other amounts including all or part of his annual exemption (£8,200 for the year 2004-2005) and any capital losses available to him. In certain circumstances, the Shareholder's liability to capital gains tax may be reduced by taper relief.

Capital losses arising from the disposal of the Ordinary Shares may, in certain circumstances, be set off against income of the Shareholder.

Companies

A corporate Shareholder who disposes of (or who is deemed to dispose of) its Ordinary Shares may be liable to corporation tax on chargeable gains in relation thereto at the usual rates of corporation tax applicable to it (30% for the year 2004-2005 for companies paying the full rate of corporation tax). In computing the chargeable gain liable to corporation tax the Shareholder should be able to deduct from disposal proceeds the cost to it of the Ordinary Shares (together with incidental costs of acquisition and disposal), as increased by indexation allowance, and may be able to deduct capital and certain income losses available to it. In some circumstances a Shareholder may be exempt from corporation tax in relation to its disposal of Ordinary Shares under the substantial shareholding exemption.

8.4 Stamp duty and stamp duty reserve tax ("SDRT")

Issue

No stamp duty, or SDRT, will be payable on the allotment or issue of the Ordinary Shares, provided that they are not issued to a nominee or agent whose business includes the provision of clearance services or the issuance of depository receipts.

Transfer

Transfers of Ordinary Shares outside the CREST system will generally be liable to stamp duty on the instrument of transfer at a rate of (currently) 0.5% of the amount or value of the consideration given for the shares (rounded up to the nearest £5). Stamp duty is normally the liability of the transferee of the shares. An agreement to transfer Ordinary Shares will generally be subject to SDRT at a rate of (currently) 0.5% of the agreed consideration. If, however, the agreement is subsequently perfected by an instrument of transfer which is duly stamped before the expiry of six years from the date of the agreement (or, if later, the date upon which it becomes unconditional) any SDRT will be cancelled or, to the extent already paid, will, upon a claim being made, be repaid. SDRT is normally paid by the person to whom the shares will be transferred under the agreement.

Entry into CREST

No stamp duty or SDRT should arise on the transfer of the Ordinary Shares to CREST for conversion into uncertified form, unless the transfer is for consideration.

Transfers within CREST

Ordinary Shares may be transferred in a paperless form within CREST. Any such transfer will normally be subject to SDRT at a rate of (currently) 0.5% of the amount or value of the consideration paid for the Ordinary Shares. CREST is obliged to collect SDRT from the transferee in relation to transactions settled through the CREST system.

Persons who are not resident or ordinarily resident (or, if resident or ordinarily resident are not domiciled,) in the United Kingdom, including those individuals and companies which trade in the United Kingdom through a branch, agency or permanent establishment, and who subscribe for the Ordinary Shares in the course of that trade, are recommended to seek the advice of professional advisors in relation to their taxation obligations in both the United Kingdom and any other jurisdiction in which they may be liable to tax.
